ENVIRO TRAILOO SPECIFICATIONS

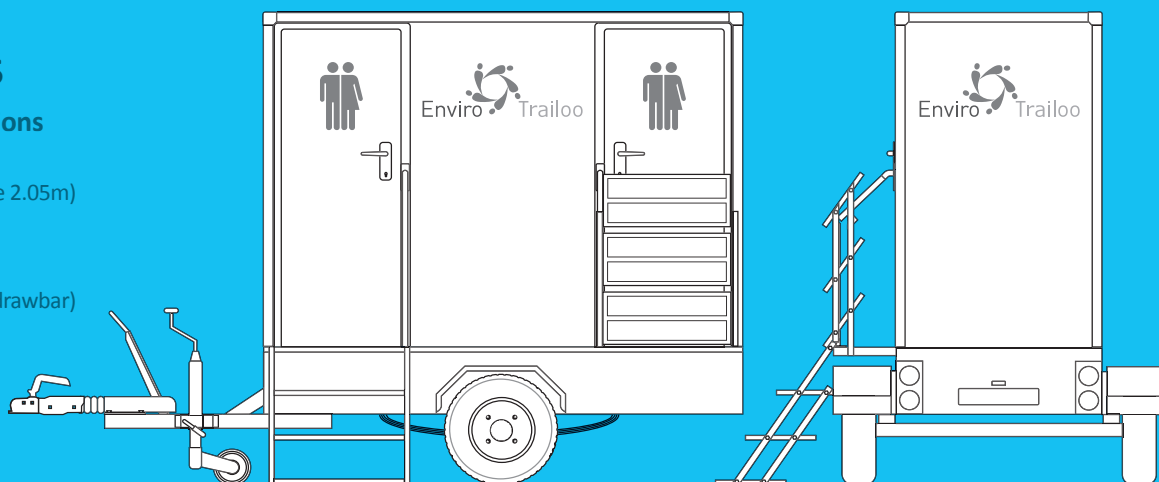

TRAILOO DIMENSIONS

Trailer Dimensions

- Height 2.4m
(Height of cubicle 2.05m)
- Width 1.2m
- Length 2.8m
(3.1m including drawbar)

Trailer Weight

- 430kg

DAILY USER SERVICE FREQUENCY

Events & Hospitality (1 to 3 Days)

- Premium events are governed by event ratios (pax to ablution facilities), which the Enviro Trailoo easily achieves and manages along with our on-site service staff, perfectly suited to premium events where experience, luxury, and comfort is paramount.

Medium & Long-Term Duration

Daily Users	Weekly Service
1 to 5	1 x
6 to 10	2 x
11 to 15	3 x

This range assumes 250ml per urine event and 150g of mass per bowel movement per user per day.

- The technology easily allows for self-service with remote Trailoo support, weekly waste collection and management.

SUITABILITY

- Premium sporting and entertainment events
- Corporate hospitality
- Exclusive outdoor South African functions
- Contract, medium and long-term sites for management personnel
- Large gatherings
- Weddings

ENVIRO TRAILOO FACTS

- Fluid free, zero chemicals and water utilisation.
- Premium hygiene, no harsh chemical exposure upon usage.
- Easily serviced, on site service without heavy bulky mechanical equipment and associated complications and risks.
- No environmental contamination risk upon delivery and pick up, waste is removed and transported in a sealed compartment not connected to the trailer.
- Easily deployable anywhere.
- Circular event sanitation economy, waste responsibly treated and no loading of already burdened wastewater treatment sites.
